

July 2024

Dear President of AGORA Federation,

On behalf of the European Alliance for Patient Access (EAfPA), the European division of the Global Alliance for Patient Access, I am pleased to extend our full endorsement of the AGORA CONFERENCE to be held on 26-28 September 2028 in Malta.

This conference promises to be a significant event in the area of RMDs, bringing together experts, including people with RMDs to share knowledge, innovations, and foster collaboration.

We recognise the importance of such initiatives in advancing our shared goals and values. EAfPA is proud to support the AGORA CONFERENCE and looks forward to the positive impact it will have with and for our community.

Sincerely,

Neil Betteridge
Senior Director
European Alliance for Patient Access
